

CERTIFICATE OF APPROVAL

No. NCS-101

In compliance with the rules of Nordic Certified Scantlings (NCS),
Windows and Doors, this certificate applies to the products

Laminated scantlings and finger jointed massive wood
for use in door and window production in the Scandinavian countries produced by

"NOKA" Holzverarbeitungs GmbH
Langholterweg 1a
26683 Saterland - Ramsloh
VAT no.: 20 38 15 56 7

This certificate attests full compliance with all regulations given in the document "Certification of laminated scantlings (blanks) for use in door and window production - Technical requirements for processing and production control", and that the products fulfil the prescribed requirements given by NCS.

The certificate allows the above-mentioned company to mark their products according to NCS rules.

This certificate is only valid if the factory has an agreement with an authorised control body for the given products regarding inspection and testing. It will be valid from the date of approval and five years ahead, but can be recalled if the requirements of NCS Nordic Certified Scantlings are not fulfilled.
